

**ENVIRONMENTAL IMPAIRMENT LIABILITY**  
**SITE INFORMATION**  
**APPLICATION**  
**PART II**

1. Facility Name: **ALASKAN COPPER & BRASS CO. ETAL**
2. Address: **619 So. Alaska  
Seattle, Wa.**
3. Description of operations at this site:
4. Years in business at this site:  
**13 years**
5. Sales or payroll for this location:  
**Approx. 3 million**
6. Has site been used as described above since time in business?  
**Yes**
7. Are there any closed or old landfills or surface impoundments?  
**No**  
If so, please describe.
8. Describe surrounding area:
- |             |                                     |
|-------------|-------------------------------------|
| Industrial  | <input checked="" type="checkbox"/> |
| Commercial  | <input type="checkbox"/>            |
| Rural       | <input type="checkbox"/>            |
| Residential | <input type="checkbox"/>            |
- Mixed (specify) \_\_\_\_\_
9. Indicate closest surface water i.e., creek, river and describe proximity to this site:  
**Approx. 2 miles from Puget Sound**
10. This site is classified by EPA as:
- |                   |                                     |
|-------------------|-------------------------------------|
| Generator         | <input type="checkbox"/>            |
| "TSD"             | <input type="checkbox"/>            |
| No Classification | <input checked="" type="checkbox"/> |
11. If TSD, does this facility employ any of the following on site to manage generated wastes:
- |                                                              |                                                 |
|--------------------------------------------------------------|-------------------------------------------------|
| <input type="checkbox"/> Wastewater Treatment                | <input type="checkbox"/> Incinerator            |
| <input type="checkbox"/> Storm or Sanitary Treatment         | <input type="checkbox"/> Landfill               |
| <input type="checkbox"/> Hazardous Waste Surface Impoundment | <input type="checkbox"/> Waste Piles            |
| <input type="checkbox"/> Neutralization Pond                 | <input type="checkbox"/> Sludge Drying          |
| <input type="checkbox"/> Storage Tanks or Vault              | <input type="checkbox"/> Other (Describe) _____ |
12. If surface Impoundment or Landfill, describe briefly construction and monitoring.  
**N/A**

13. Has site been surveyed or inspected for EIL and by whom?

No

14. Are there any past or current Regulatory citations or losses:

a) Procedures or reporting (describe): No

b) Operational (describe):

c) Third Party Suits:

15. Are there any circumstances which could give rise to a claim:

No

16. Describe the types and quantities of hazardous substances generated by or used in the manufacturing process or stored on the premises **OR** attach copies of EPA Notification Form 8700-12 or 3510-1 or 3510-3.

This site has only a tank containing a nitric acid solution of 18.53%, Specific Gravity 1.162 at 75 deg. F, Specific Gravity 1.159 at 90 deg. F, approximately 2500 gal. The system has no effluent discharge. See attached lab report, dated July 19, 1982.

17. AIR EMISSIONS: Composition of any emissions into the air.

No

18. SEWER EMISSIONS: Composition of any effluent discharged into sewers.

None
